

Assignment on LDA

CPSC 503 - Pedagogical Project

April 2019

This is a self-assessed assignment intended to assess students' understanding of the Latent Dirichlet Allocation (LDA) topic modelling algorithm. Possible answers are provided here.

1 Warm-up (30 points)

Determine an application of LDA. Describe how the authors have used LDA. What do you like and/or dislike about this application?

2 Comprehension (30 points)

3 Application (40 points)
